

## CWSF 2005 - Vancouver, British Columbia

## **Sean Theriault**

## **Smell That Energy**

Division: Category:	Earth & Environmental Sciences Junior
Region:	Lambton County
City:	Wyoming, ON
School:	St. Francois Xavier
Abstract:	Concerned by our depleting energy reserves, I searched for an alternate fuel source. I gathered four different manures (cattle, sheep, turkey, and horse), dried them, then burned them. I measured the heat produced by each and compared the temperatures to those produced by coal and wood.
