

CWSF 2007 - Truro, Nova Scotia

Brittany Prosper, Kaylyn Bernard

Hydrogen Power

Division: International / None

Category: Junior

Region: Mi'kma'q First Nation

City: Whycocomagh, NS

School: We'koqma'q First Nation Secondary School

Abstract: Our project is about showing people how Hydrogen Power is used, how it is made/produced and explaining what Hydrogen could do for us in the future. We also talk about how we made our experiment and how it works. We also might have a video of our selfs blasting off the rocket and explaining what the rocket is doing step by step during the process.

Biographies

Brittany - My name is Brittany Prosper, I'm 12 years of age and my birth day is July 02. I was born in July 02, 1994. I live in Whycocomagh, Cape Breton NS. My parents are Phillip and Mary Prosper. I do very well in school, but I have a hard time in math sometimes. I like to play outside with my brothers and I like to clean up. I won the science fair in Membertou and it was really fun, and I was so happy to win first place and go to national. Science is very fun to me. I don't like sea food, Mushrooms or stuff like that. I like school (a little) and I like the computer and hanging out with my friends. I can be fuzzy with what I eat sometimes. I love music...

Kaylyn - My name is Kaylyn Jean Rose Bernard and I am 11 years old in Grade 7. I go to the We'koqma'q Secondary School. I love animals of any kind and love to eat good food. My hobbies are playing around outside getting dirty, playing with my pets and playing street hockey. I have been playing hockey for 3 years. I am also on a hockey team called the Whycocomagh Oilers that we just finished for the season and now going into another year of all girl's softball called The Royals. If I make the team this year, I will be going to the Little League Girl's Softball Nationals!! We will be switching our name to The T.N.T. Dynamites. We will be the very first ...
