

CWSF 2007 - Truro, Nova Scotia

Megan Sportak, Brianna Brazeau

Risks of Diabetes

- Division:** Life Sciences / None
Category: Junior
Region: Manitoba First Nations
City: Elphinstone, MB
School: Keeseekoowenin School
Abstract: The project we are working on is mostly about the risks and symptoms of Diabetes for Aborigines. We worked hard to get where we are. We did well and we have received many rewards.

Biographies

Megan - Hi my name is Megan Sportak and I am in the CWSF this year (2007). I was in the MFNSF 4 years and the first year I have been rewarded a bronze because I did "Valcanoes", the second year I did "The Effects of Drugs and Alcohol" and I have been rewarded a silver, then the third year I did "Ozone Depletion" with my partner and we were rewarded a gold, this year I worked on "the Risks and Symptoms of diabetes for aboriginal people" and we have been rewarded a gold and the geomics reward, the rescerchers of tomorrow, \$200 and we did so well we have been chosen to go to the CWSF. This year has been going so well because I have been chosen to go to...

Brianna - Hi my name is Brianna Brazeau, I am 11 years old and I am in grade 7. I got the chance to go to the MFNSF 2 time now and this year (2007) I worked with my cousin Megan Sportak, we did "The risks and symptoms of diabetes for aboriginal people".
