

CWSF 2007 - Truro, Nova Scotia

Juliana Kwong

The Best Drinking Water Quality

- Division:** Life Sciences / None
Category: Junior
Region: York
City: Markham, ON
School: Trillium Montessori and Elementary Private School
Abstract: Water quality should be a big concern to everyone, humans and animals. Quality is the acceptability of the water for uses like drinking, cooking, bathing, and even cleaning your clothes. Most water treatments are safe and have good quality.

Biography

My name is Juliana Kwong and I am 13 years old. I know how to play the piano. I joined the 'science club' this year at my school and I benefit from it a lot. Some hobbies that I have are that I like skating on ice, and during the summer if I have free time, I go biking outside, I join various activities during the summer time as well. Some awards that I have earned from school are, science fair awards, I have received honorable mentions, third place, second place and first place as well. Some achievements and awards that I have received outside of school are swimming awards, I go to competitions and I have received a first place and third place award. I think that I am very lucky to be able to have an experience this time to be a participant of the CWSF.
