Jordan Lyall

Spud Gun

Division: International / None

Category: Intermediate

Region: Kitikmeot

City: Cambridge Bay, NU

School: Kiilinik H.S.

Abstract: My Science Fair Project is called Potato Gun. The purpose of the project was to see what would be the better fuel to launch a potato, Axe Body Spray, Lysol Air Freshener or hairspray. In the end, data showed that hairspray was the only product that was successful in fueling the potato gun.

Biography

My name is Jordan Lyall. I am fifteen years old and from Cambridge Bay, Nunavut. My interests include music, singing, writing poetry, and girls. In my free time I enjoy surfing the web, singing songs from My Chemical Romance, Panic At the Disco, and Fall Out Boy, and annoying my teacher. I have never traveled much outside of Nunavut and I am looking forward to my trip to Truro. My aspirations are to write a book of poetry, to travel to the United Kingdom and Australia, and try out for Canadian Idol. As far as my dreams are concerned, I want to be in a famous band, meet Burt McCracken, and to go backpacking across Canada with nothing but a hobo stick and a pocketful of dreams. This is me, Jordan Lyall, in a nutshell.
