Baa Baa Burrr "Hypothermic Lambs"

Division: Physical & Mathematical Sciences / None

Category: Junior

Region: Western Manitoba

City: Brandon, MB

School: Kirkcaldy Heights

Abstract: How do lambs that suffered from hypothermia, grow and develop when different variables are used to sustain their lives? Using the different variables we believed that the ewe fed lamb that was also bottle fed will excel in growth. In a four week period we weighed and measured the lambs every second day. We concluded that our results matched our hypothesis finishing our experiment.

Biographies

Paige - My name is Paige Friesen. I attend Kirkcaldy Heights School and am 14 years old. I have four horses, which I barrel race with. Last year, I was third in the Manitoba Barrel Racing association with my horse Rich. I have thirteen cats. I have three house cats, three indoor/outdoor cats and the rest are barn cats. I also have three dogs; one rottweiler, one bull mastiff and one yorkshire terrier. Volleyball is my favourite sport, and play twice a week on the club team. I play the clarinet and the piano. I just started playing clarinet this year in band and have been playing piano since I was in grade three. I am now in grade five piano. I love a...

Charlee - I'm a 13 year old girl in grade 8 at Kirkcaldy Heights School in Brandon Manitoba. I'm an honour roll student and my favorite subjects are math & science. I play 1st clarinet in our band program and play the electric guitar in our jazz band. My musical interests also include taking private lessons in electric & acoustic guitar and drums. I'm very active and enjoy participating in the school sports teams of volleyball & badminton. I'm very artistic and love drawing, arts & crafts, sewing, and woodworking. I'm very fortunate to have a home in the city and in the country. I love nature and all aspects of being outdoors. I enjoy camping, fishing, ...
