Smoke Detectors

Division: International / None

Category: Junior

Region: Southeast Saskatchewan

City: Truax, SK

School: Avonlea School

Abstract: Our Science Fair project is about the safety of smoke detectors. Testing to see if the reaction time got longer the more they were set off. The alarms we used were a Hardwire smoke alarm and a Battery Operated Dual Sensor Smoke Alarm. Our results concluded that the more the smoke detector was set off the longer it took to detect smoke.

Biographies

Niki - My name is Niki Marie Beingessner, I am 13 years of age and currently attending Avonlea School.
