Kaitlin Fisher

Left or Right?

Division: Life Sciences / None
Category: Junior
Region: Avon Maitland-Huron Perth
City: Goderich, ON
School: Colborne Central P.S.

Abstract: The experimenter did her science fair project on handedness. Experts have stated that left-handed persons tend to be more creative than right-handed persons. The experimenter did a test to see if the statistics were correct. The experimenter tested ten left and right-handed students in her school by using the Rorschach Inkblot test, "Creativity Questions", and a survey. She also asked the subjects to draw themselves.

Biography

My name is Kaitlin Denise Fisher. I am 12 years old. I was born on July 15, 1995 in London, Ontario. I live on a beef farm just outside of Benmiller, Ontario. I enjoy playing ringette and baseball. Last year in ringette I won the "Most Sportsman-Like" Award. Last year my team won the Huron Perth Title. Three years ago, my baseball team was the league champ. I spend most of my summer at Shelter Valley Campground located between Goderich and Clinton, Ontario. I love swimming and biking. I have played piano for 6 years. I love animals. I have a golden retriever cross dog named Paisley. I have many cats. I enjoy snowmobiling and I like to drive my family's four-wheeler. My mom's family lives in Calgary, Alberta, so every other year my family spends two weeks there in the summer. Last year, my class went on a trip to Canada's Wonderland. It was one of the most memorable experiences of my life! This summer should be packed full of fun, as I am playing baseball, camping, and going to Ontario Educational Leadership Camp (OELC). At OELC I am taking a Creative Writing Course.
