Investigating Blood Sugar

Division: Sciences de la vie / Aucun

Catégorie: Junior

Région: Sahtu

Ville: Norman Wells, NT

École: Mackenzie Mountain School

Sommaire: In Investigating Blood Sugar I did a series of experiments in order to see if a person's blood sugar level can change without consuming food but instead laughing or having food being introduced to their sensing organs excluding tongue and ears.

Biographie

I was born and I have lived in Northwest Territories my entire life. Despite living in an isolated community I have traveled to many countries, including Ireland, my father's homeland. I enjoy all types of art, and I am a grade 2 piano player. I have a beautiful collie, Jesse, and a younger sister, Meadhbh.
