Learning Styles and Strengths of 7th Graders

Division: Life Sciences / None
Category: Junior
Region: York
City: Richmond Hill, ON
School: Silver Stream P.S.
Abstract: Based on my original experiment, I determined the unique cognitive profiles and preferred learning styles of my classmates and myself. The results from the data analysis are significant. By knowing our learning strengths and styles, we can develop learning strategies to compensate for our weaknesses and capitalize on our strengths. By expanding on our current learning skills, we will better meet the challenges ahead.

Biography

I came in Canada in grade 3. I graduated Kingslake P.S. with the top highest marks in my grade level. I am currently enrolled in Silver Stream P.S. I am a quick learner, enthusiastic, a good team member, eager and willing to assume responsibilities. I enjoy taking part in: Student Council, Floor Hockey, Choir, French Club and Character Matters. I have been a proud Mater of Ceremony for many school assemblies and community events, including the Terry Fox Run and Jump Rope for Heart. I was and I am a student secretary, library monitor and morning announcer. Some of the awards I have won are: -Silver Stream's 2007-2008 Writing Contest for the Brock University - with the essay titled "A Classroom Community" -Kingslake's 2006-2007 Writing Contest for a well the school built in Cambodia ? with the following motto: "A drop of hope for peace" -the Principal's Award for Student Leadership presented by the Ontario Principals' Council in Grade 6 -the Valedictorian Award at the Grade 6 Graduation Ceremony -the Science and Technology Award at the Grade 6 Graduation Ceremony -the Fibonacci and Pythagoras Mathematics Contest Diplomas in Grade 5 and 6 My goal is to become a lawyer.
