#### Left or Right: Side Dominance

**Division:** Life Sciences / Automotive

**Category:** Junior

**Region:** York

**City:** Richmond Hill, ON

**School:** Richmond Hill Montessori and Elementary Private School

**Abstract:** There are two purposes of this investigation. The first is to find out if one's writing hand determines side preference in daily activities. The other purpose was to find out the population of different side-dominance (left or right). The outcome concluded that yes, one's writing hand will affect side preference. Right-dominance prevails and that is consistent in different age groups.

#### Biography

I enjoy doing many logic puzzles and riddles and I can finish the Rubik's Cube. I am currently playing for two soccer rep teams: the Richmond Hill 1996 Girls Raiders and the York Region Soccer Team. I play soccer 5-6 days a week. My ambition would be to play on the Ontario provincial team. I also go to Spirit Of Math Schools once a week. I would like to go to Bayview Secondary School and attend the IB program for high school. I speak English and Cantonese fluently, but can still speak in French. I hope to be an accountant when I grow up, just like my mom.
