

## CWSF 2008 - Ottawa, Ontario

### Saijal Suri, Hyui In Jun

#### Germey Hosts

**Division:** Physical & Mathematical Sciences / None

**Category:** Junior

**Region:** Peel

**City:** Brampton, ON

**School:** William G. Davis Senior P.S.

**Abstract:** The experiment, Germey Hosts, involved collecting and growing bacteria samples, using cotton swabs and agar plates, from washrooms in various public locations. Discovering shocking results like the presence of many pathogenic bacteria, such as E.coli, Salmonella and Streptococcus, and the conclusion that malls are safer than schools, this project also suggests proper washroom-cleaning habits and a cost estimate for replacing inefficient bathroom fixtures.

#### Biographies

Saijal - My name is Saijal Suri, I am 13 years of age and am currently in the International Baccalaureate Middle Years Program in Grade 8 at William G. Davis Snr. P.S. in the region of Peel. I was born on June 3rd, 1994 in India, however we soon after moved to Dubai, U.A.E., where we lived for 7 years, after which we moved to Canada. Along with having a strong academic background at school, I'm also involved in a variety of groups such as Extinguish, an anti-tobacco organization, Senior Band, as I play the flute, and the Athletic Council, among others. Also, my strong leadership and communication skills allow me to be involved in many activities aro...

Hyui In - My name is Hane Jun and I am 14 years old. I was brought into this world on March 30th, 1994 in Seoul, South Korea. My life, so far has been pretty hectic, because I've been named "gifted" ever since Grade 5, leading a challenging life from a very young age. Currently, I am in the International Baccalaureate Middle Years Program [IBMYP] and this has opened many new doors for me. At school, I like to be involved in many things, like band, for example. And even outside of school, I am very involved in the community, like Piano, babysitting and even tutoring some of my friends in Math. Some careers I would like to pursue later on in my lifetime ...
