Virtual Fencing

Division: Health Sciences

Category: Intermediate

Region: Qu'Appelle Valley

City: Peebles, SK

School: Kipling Elementary/High School

Abstract: My project is on virtual fencing. I was trying to figure out if it was possible to control cattle with a virtual fence. A virtual fence is a fence without posts and wires. You put a collar around a cow

Biography

I am 15 years old. I'm in track and field, volleyball, and soccer. I play the piano, and I enjoy working outside with cattle and riding horses. Doing things around the farm like driving tractors and fencing are what I enjoy. Awards I have achieved are: certificates in Kipling Music Festival, and metals and ribbons in Science Fair. I got 2nd overall in our school last year and bronze in my category at regionals. This year I received 1st overall in our school and at the regionals I got second overall along with a glass plaque.
