50 Feet or Bust - Water Rocketry

Division: Engineering & Computing Sciences

Category: Junior

Region: Algoma Rotary

City: Sault Ste. Marie, ON

School: St. Mary's French Immersion

Abstract: I tested various designs of bottle rockets to see which design would permit the rocket to reach 50 feet. I learned about the science behind rocketry, including thrust, gravity and drag. I was successful; one of my rockets did reach 50 feet.
