The Socio-Thermology of the Mi'kmaq Sweat Lodge

- Division:** Life Sciences / None
Category: Senior
Region: Mi'kma'q First Nation
City: whycomomagh, NS
School: We'koqma'q First Nation Secondary School
Abstract: Study all the aspects of heat transfer in the Mi'kmaq sweat lodge and come to an understanding of why these temperatures have created such a spiritual experience for our people. To do this we built a lodge, Asked elders for help, heated the rocks ran tests, surveyed people, collected anecdotal data, participated and measured an actual sweat.

Biography

Accepted to Acadia! Environmental science is my calling. spend alot of time working in the woods. Very proud of my Mi'kmaq heritage.
