

ESPC 2008 - Ottawa (Ontario)

Kendall Clarke

Energy Drinks Versus Water

Division: Sciences de la vie / Aucun

Catégorie: Junior

Région: Lethbridge

Ville: Lethbridge, AB

École: Gilbert Paterson Middle School

Sommaire: My project is basically about energy drinks. I have compared the contestants physical and mental performane with drinking these drinks and also with drinking water. You will see that even know these drinks claim to work so well they really don't work that much better than normal water.

Biographie

Hi, I am Kendall Clarke I am 13 years old and I am currently attending Gilbert Paterson Middle School in Lethbridge, Alberta. My hobbies are mostly badminton, tennis and soccer. I just resently won a badminton tournament here in Lethbridge. I love science and also competing in school science fairs! This is my first time actually going outside of Lethbridge for a science fairs. I also volunteer at my church youth club and we do various activities around Lethbridge.
