Effects of Second-Hand Smoke on the Lungs

Division: Life Sciences / None

Category: Intermediate

Region: Kitikmeot

City: Kugaaruk, NU

School: Kugaardjuk Ilihakvik

Abstract: My project focuses on the effects of second - hand smoke on the body. I was interested to see how harmful this can be. I have performed an experiment involving a plastic bottle, balloons, plastic bottles and a cigarette to see what second - hand smoke can leave behind.

Biography

My name is Jamie, I am from Kugaaruk Nunavut. I like living here because, there is a lot of things to do, like, go hunting, play sports, and all kinds of outdoor activities. In 2007 i was able to go on an exchange trip to Toronto Ontario. In the future, I want to be an electrician.
