Derek Andreas

Germinator

Division: Physical & Mathematical Sciences / None

Category: Junior

Region: Parkland

City: Sheho, SK

School: Foam Lake Composite High School

Abstract: My project is to see if hydrogen peroxide added to water at different ratios can make a higher final rate of germination and also increase the speed of the test better than the wet paper towel method.

Biography

My name is Derek Andreas I am 14 years old and I live on a farm by a small town. I enjoy farming and I also like cattle since our family runs a mixed farming operation. I am on the honour roll. I enjoy sports like football, badminton and my favorite sport is curling. I am in 4-H and I love quadding and snowmobiling.
