

## CWSF 2005 - Vancouver, British Columbia

### Michelle Kovesi

#### Remember?

**Division:** Health Sciences

**Category:** Junior

**Region:** Ottawa

**City:** Ottawa, ON

**School:** Turnbull School

**Abstract:** I wanted to determine what factors affect memory recall and whether there is any relationship between a person's memory for each of their five senses. I found no link between the performance of the five senses. Age, gender, time of day, hours slept, and consumption of alcohol affected memory recall.
