Johnathan Belisle, Manon Belanger

Turbine Hydro-électrique

Division: Health Sciences / Environmental Innovation

Category: Intermediate

Region: Sudbury

City: Sudbury, ON, Chelmsford, ON

School: Collège Notre-Dame

Abstract: Notre projet consiste de la création d'une nouvelle type de turbine. Elle est complètement submersible, interchangeable et fonctionne avec une haute efficacité. Elle est aussi bonne pour l'environnement et peut être utiliser dans presque tous les corps d'eau avec un courant (incluant les marés, les rivières, les océans etc...).

Biographies

Johnathan - My name is Johnathan Belisle. I was born in Sudbury, Ontario and I am now in a family of five. I have committed myself to trying new things in order to achieve a greater state of mind, awareness and knowledge. I like activities such as poetry, literature, sports, conversation (deep and small talk), spending time with family and friends and trying to see the world from many different points of view. I have always had a fascination for the world that surrounds me, incited greatly by my loving family and most notably, my recently departed grandfather. In his memory I plan to enthrall myself into the world with the benefited insight of a great an...

Manon - My name is Manon Bélanger and I am a 15-year-old girl from Ontario. I enjoy reading and dancing as I have been taking dance classes for nine years and have been competing in Niagara Falls. I have a passion for animals and I am currently raising money to donate to the SPCA to buy food and toys for abandoned and abused animals of all regions. Moreover, I am deeply interested in psychology and the study of dreams. I am a Pisces and therefore very imaginative, sensitive, sympathetic, generous, peaceful and ambitious. I am currently enrolled in an enriched science class and will be taking it again next year as well as visual arts and Spanish. I d...
