

## CWSF 2005 - Vancouver, British Columbia

### Graham Briggs, Jared DeMarchant

#### Wheat Burner

**Division:** Engineering & Computing Sciences

**Category:** Junior

**Region:** New Brunswick

**City:** Lindsay, NB, Jacksonville, NB

**School:** Woodstock Middle School

**Abstract:** Our hypothesis was to see if diseased wheat (infected with a fungus) could be used as a fuel. We built a stove to burn the wheat. We did two experiments - burning wheat and burning wood pellets.
