The Music Memory

Division:	Life Sciences / None
Category:	Senior
Region:	Halifax
City:	Prospect Bay, NS
School:	Halifax West High School
Abstract:	The Musical Memory is an experiment that focuses on the effects of the music of J.S. Bach on the retention rate of individuals ages 15 through 18. Various aspects were studied in order to isolate possible variables that might affect the outcomes of the experiment. Both research and testing were completed to fulfill a thorough project.
