

## ESPC 2009 - Winnipeg (Manitoba)

### Raelyn Kerbrat

#### Ice Cooties 2

**Division:** Sciences de la vie / Aucun

**Catégorie:** Sénior

**Région:** Pacific Northwest

**Ville:** Smithers, BC

**École:** Smithers Secondary

**Sommaire:** I used the scientific method to search for the cause and effect of human contact in a regular restaurant situation. I asked the question if the bacterial contamination of ice from a restaurant that uses an ice dispenser would be different than the bacterial contamination of ice from a restaurant that uses an ice machine.

#### Biographie

My name is Raelyn Kerbrat, I am in grade 11, and currently attending Smithers Secondary School. This past winter I was on the Smithers Secondary School ski/snowboard team. The Girls Snowboard Team earned a berth at the BC School Sport Provincial Championship and we were successful bringing home the Provincial Banner to our school. I currently play with the school's rugby team and enjoy playing soccer on a BVYSA team. I am currently a member of the Smithers Secondary Senior Jazz Choir. Our choir had the privilege of performing at the Cantando Music Festival in Edmonton this past April. After high school I am interested in becoming an aircraft maintenance engineer. I became interested in the aircraft industry this past year while taking an aviation course at school.
