Aoife McNally, Ann Peter

Steroids for Plants

Division: Engineering & Computing Sciences / None

Category: Junior

Region: Toronto

City: Toronto, ON, Scarborough, ON

School: St. Richard C.S.

Abstract: For our science fair project, our question was: How does CO₂ affect plant growth in different environments? Our project focuses on CO₂ and global warming. We conducted this experiment over the period of one week. We observed what would happen when we exposed two groups of plants to the natural level of carbon dioxide, as well as an increased level of carbon dioxide.

Biographies

Aoife - My Name is Aoife McNally, I have one younger sister, and i live with my mom and dad. I attend a french emersion school, which i enjoy very much. I participate in many school activities and school teams, such as basketball and soccer. I also enjoy playing guitar, and being part of the youth group at St.Rose of Lima church. I get to meet many new people my age, and get to help out and have lots of fun. I also attend a Bronze Medalion class weekly, so that i can practice my swimming skills. I think that what i enjoy most is radiology, which is why i love working in my bronze med. class learning life saving technics, and first aid. Another thing ...

Ann - My name is Ann Peter. I am currently in the 8th grade, studying at St. Richard Catholic School in Scarborough. I am studying in the Extended French program, and I have 2 amazing teachers. Mme. Orfao, my French teacher and Mrs. Sebastiano, my English teacher, as well as my science teacher. I also have an amazing Music teacher, Mrs. Ivanowich. I consider myself academically very high, and I have got a 91% avg on my past report card. I have also made the basketball team at my school, and I am currently training for the school's Cross-Country team. I take piano lessons at the Joy of Music, and Carrie is my teacher. I am soon going to take my 5th ...
