Mark Bezdek

Floodlight Illumination

Division: International / None

Category: Intermediate

Region: Calgary Youth

City: Calgary, AB

School: St. Jean Brebeuf School

Abstract: Imagine a room that you want to illuminate with floodlights in a most economical way. Imagine that instead of illuminating the entire room, you want to illuminate the walls or just a stage in the room. But again we search for a most economical solution. We prove seven new theorems and raise some open questions as well for further investigation.

Biography

Born in Budapest, Hungary, Mark Bezdek came to Canada in 2003, at the age of 9. This is currently his third year attending the CWSF. Mark has a wide interest of Mathematics and Science, Mark is also interested in hockey, soccer, and basketball. When he grows up he would like to be a hotel manager.
