Bake Mistake

Division: International / None

Category: Junior

Region: Central Okanagan

City: Kelowna, BC

School: Dorothea Walker Elementary

Abstract: The purpose of this project was to find out if missing certain ingredients in muffins would affect the results after they were baked. Results measured were circumference, height, taste, texture, color and shape. This experiment was repeated ten times to see if the results would differ from one another. The most noticeable results were from missing out flour, banana and baking soda.
