Yogurt Trek: The Search for Probiotics

Division: Physical & Mathematical Sciences / None

Category: Senior

Region: Central Okanagan

City: Summerland, BC

School: Penticton Secondary

Abstract: My project investigated the concentration of probiotic bacteria in three probiotic yogurts after refrigerated storage (opened yogurt container) and also a week before the expiry date (unopened container). In both cases, the concentration decreased significantly but remained greater than one million/gram; the minimum number of live probiotic bacteria believed to be required for health benefits.

Biography

My Name is Nicholas Randall and I live in Summerland, British Columbia. I attend Penticton Secondary School CADRE program. This is my fifth Canada Wide Science Fair, my first one being Vancouver in 2005. I enjoy playing house soccer and photography. Some of my favourite TV shows are HOUSE MD and Magnum PI. My favourite bands are AC/DC, the Rolling Stones, the Beatles and CCR. I enjoy playing piano and alto saxophone in jazz band. I am excited about going to Winnipeg and hope I will have the opportunity to visit the aviation museum and Boeing factory.
