

ESPC 2009 - Winnipeg (Manitoba)

Howard Feng

I Scream for Ice Cream But...

Division: Biotechnologie / Innovation environnementale

Catégorie: Junior

Région: Peel

Ville: Brampton, ON

École: William G. Davis Senior P.S.

Sommaire: This science fair project was about lactose intolerance. Lactose intolerance is a condition in which people cannot break down lactose. A majority of them take lactase caplets to relieve symptoms of lactose intolerance. Four factors were tested to see what effect each factor would have on the breakdown of lactose after adding the lactase pills.

Biographie

My name is Howard. I am currently in grade 8 and I go to WG Davis Senior Public School for the IB program. In school, my favorite subjects are physical education, math, and science. They are mainly the subjects that I succeed in. My favorite sports include: tennis, hockey, and ping-pong. I also swim and play basketball. After high school, I plan on going to an Ivy League university, notably Harvard, to enrich my experiences and going through the Canada-Wide Science Fair is something that will make that journey easier. I have won many awards, mainly in math, and this is the first time I will competing in a science competition, but I hope to pick up my first science award. Well, this is mainly who I am and I look forward to Winnipeg!

Prix

Valeur

Bourse d'études de l'Université Western Ontario	1 000,00 \$
Médaille de bronze - Bourse de début d'études de 1 000 \$	
Commanditaire: Université Western Ontario	
Médaille de bronze - Biotechnologie et les sciences pharmaceutiques Junior	300,00 \$
Commanditaire: Sciences jeunesse Canada	
Total	1 300,00 \$
