#### Which Allergy Medicine Provides the Fastest Relief?

**Division:** Health Sciences

**Category:** Senior

**Region:** Leader

**City:** Prelate, SK

**School:** Leader Composite School

**Abstract:** The purpose of my experiment was to find out which allergy medicine would dissolve the fastest in simulated stomach acid, therefore providing the fastest relief. Using a simulated stomach acid, I timed how fast each tablet dissolved. After recording my results I was able to determine which medicine dissolved the fastest.
