Christian Dube

Vertical Windmills - How do they Work?

Division: Health Sciences / Environmental Innovation

Category: Junior

Region: Eastern Newfoundland

City: Mount Pearl, NL

School: St. Bonaventure's College

Abstract: To illustrate how to create clean energy from a green, renewable resources, wind. Utilizing wind to emigrate energy is an example of ways to make our world and future safe and resourceful.

Biography

Christian Dubé is an honors student with St. Bonaventure College in St. John's, Newfoundland and Labrador. Academically he has had the opportunity to represent his school at the regional heritage fair two years ago and currently has his poem "Blue" submitted to a provincial poem competition. In sports, Christian is involved in All Star Hockey and Soccer. He has received many awards and has helped his team win the NL All Star Hockey Tournament. With his love of sports, this year he joined the school basketball team. With the music program, Christian plays the clarinet with the St. Bonaventure Concert Band with hopes of being promoted to the Symphonic Band next year.
