

## CWSF 2005 - Vancouver, British Columbia

### Viane Faily

#### Man's Best Friend Your Next Blood Donor

**Division:** Health Sciences

**Category:** Junior

**Region:** Edmonton

**City:** Edmonton, AB

**School:** Edmonton Islamic School

**Abstract:** Blood is expected to be there when we need it. However, only a fraction of people who can donate do. As a result, an alternative is needed. This alternative can come through using animal blood for human blood transfusions. Through the process of cross matching, this can become a reality.
