Teen Girls

Division: Health Sciences

Category: Intermediate

Region: Kitikmeot

City: Cambridge Bay, NU

School: Kiilinik High School

Abstract: High school is a big step for any student. For girls it's a total life changing experience. Through a survey, this project identifies those experiences. We discovered that the students did not fit our stereotypical categories. Based on the results, we identified strategies to help teen girls cope with their challenges.

Awards	Value
