Should You Look A Gift Horse in the Eye? The Validity of the Equine Eye In Assessing Character

Division: Biotechnology

Category: Senior

Region: Rideau-St. Lawrence

City: Elgin, ON

School: Rideau District High School

Abstract: Prevalent among equestrians is the belief that the appearance of the equine eye can indicate character. An assessment tool was designed and applied to subjects, concluding that this theory is inaccurate. However, a simple reaction test simulating abrupt movement produced a direct link between the equine eye and character.

Awards	Value
The University of Western Ontario Scholarship Bronze Medallist - \$1000 Entrance Scholarship Sponsor: University of Western Ontario	\$1 000
Bronze Medal - Biotechnology & Pharmaceutical Sciences - Senior Sponsor: Rx&D Health Research Foundation	\$300
Total	\$1 300
