Abstract: My name is Carly Redford and I am currently Peter Skene Ogden Secondary in 100 Mile BC. I enjoy the company of my friends, listening and playing music, psychology, and history. At the moment I am looking to pursue a history major joint with english, or possibly studying music and it's affect on human behavior; I want to love my career.

Biography

My name is Carly Redford, and I am currently in grade 10. I would classify myself as confident, outgoing, likeable and social. The most important things in my life right now are my friends, my ambitions, my family, and most of all my future. I like to offer a volunteering hand where ever necessary (the local racetrack, community events, school events), and I'm quite well known for entering competitions (ex. CWSF, DI, etc.). My most current projects going on right now are Science Fair, and I have just been invited to attend a conference for antidiscrimination to better my community. My hobbies/interests are basic. I enjoy music (band, guitar, sound engineering), socializing (whether with friends or people I don't know), and traveling (I believe traveling places creates a unique character and the more places one goes, the more dynamic they may become). My intended career right now is Sound Engineering at the Los Angeles Recording School in the summer of 2011. I would like to take this as an opportunity to possibly open doors for a career in sound engineering, or music therapy. My most important achievement is going to CWSF in 2007 & 2009, and I am proud!
