Division: Physical & Mathematical Sciences

Category: Junior

Region: Cape Breton

City: Sydney, NS

School: Malcolm Munroe Memorial Jr High School

Abstract: Three different tests were completed to determine which golf ball performs the best overall and compare this to the cost of individual each ball. A ranking system was also created to compare all tests. Wind resistance, roll and bounce were tested for each of the 8 different types of balls. Mass and diameter were also included in the overall score.

Biography

I am 13 years old and live in Sydney Nova Scotia. I am a grade 8 French immersion student at Malcolm Munro Junior High. I love to travel and have been to Florida, Texas, New York, Ontario and many other maritime locations. My favorite sport is hockey and have seen 3 NHL games in New York. I love all sports and played Bantam B this year and also play golf every summer at the Highland Links golf course in Ingonish, Nova Scotia. I have a brother who is six years old, and 3 year old twin brother and sister. I also have two dogs and two cats. I like being active and being with my family and we are a very tight knit group. I like watching science type shows on tv (Mythbusters) and work really hard to do my best in school. I'm not sure what career I will get into but I will definitely be going to university, hopefully St. F. X. U.!
