

ESPC 2010 - Peterborough (Ontario)

Sam Schoch

Effect of Household Cleaners on Bacteria

Division: Sciences de la vie

Catégorie: Junior

Région: Lambton County

Ville: Sarnia, ON

École: King George VI E.S.

Sommaire: Do household cleaners do all that they say they do? Bacteria will be grown for 7 days after being gathered from one kitchen sample. The bacteria will be exposed to both chemical cleaners as well as environmental /natural cleaners. The results will be recorded with the most effective cleaner being revealed.

Biographie

Hello, my name is Samantha Schoch but I much prefer to be called Sam. I am 13 years old and am presently in grade 8 at King George VI in Sarnia, Ontario. Where I am a member of the Student Leadership team. I am involved in our schools healthy snack program and tutor younger students. I enjoy a wide range of activities which included canoeing, camping while attending my Pathfinder group. I belong to the Sarnia Curling club and have curled for 6 years. I also study karate and have completed my blue belt. My goal is to earn my black belt before completing high school. I play the piano and love listening to my i pod and reading just about anything written. In the spring and summer I swim and play in a soccer league. In the future I hope to get into the medical field specifically as a Pediatrician. I love to laugh and have a strange sense of humor. That's me Sam I Am!
