

CWSF 2010 - Peterborough, Ontario

Nicole teBoekhorst

Beverage aids

Division: Life Sciences

Category: Junior

Region: Durham

City: Oshawa, ON

School: Waverly P.S.

Abstract: The purpose of my experiment was to design and build a system to raise a cup of water so that someone can drink from it without having to bend over or lift a cup.

Biography

Nicole teBoekhorst, is a 13 years old girl. She goes to Waverly Public School in Oshawa Ontario. She participates in a variety of school activities such as Sports (soccer, basketball, volleyball, curling, ect.), Leadership (attended the 2009 Durham Region Leadership Camp), and she have won various awards (athletics, character, arts, achievement). Nicole also plays soccer outside of school. Nicole enjoys being with her friends, playing sports and just having fun, like any other teen. In the future Nicole want to become something in the medical field, for example a doctor. She would like to attend high school and then move onto University.
