

ESPC 2010 - Peterborough (Ontario)

Raiden Cochrane

Squeaky Clean and Going Green

Division: Sciences physiques et des mathématiques

Catégorie: Junior

Région: Manitoba First Nations

Ville: Koostatak, MB

École: Charles Sinclair School

Sommaire: The purpose of the study was to determine if an all natural, homemade hand sanitizer would work just as good or better than regular soap and water or store bought hand sanitizer containing isopropyl alcohol. Tested 5 different types of hand sanitization products in a controlled environment to determine which one worked the most effectively.

Biographie

Hi my name is Raiden Cochrane. I am a First Nations individual from Fisher River Cree Nation. I am in grade 7 and attend Charles Sinclair School. I have won highest academic achievement twice, once in grade 5 and then again in grade 6. Hopefully I will win it again this year. My favorite thing to do at home is play video games, especially my Xbox 360 games. When I grow up I would like to be a video game developer or possibly get involved in politics. Other things I enjoy are riding on my new four wheeler and target practicing with my pellet guns.
