Elijah Linklater

Oil Spill Clean UP - The Natural Way

Division: Physical & Mathematical Sciences

Category: Senior

Region: Manitoba First Nations

City: Nelson House, MB

School: Nisichawayasihk Noyo Ohtinwak Collegiate

Abstract: This project is about removing oil from water in oil spills. I used the idea in this project as an alternative, instead of known harmful methods which are practiced today. This is a much better way to avoid loss of aquatic life and reuse the oil. In this way we can still use the nonrenewable source of energy which is in high demand

Biography

My given name is Elijah Linklater, I am from Nisichawayasihk Cree Nation or Nelson House. I am finishing my highschool grades and am going to continue my studies either in college or university. Science is very interesting to me and I am fascinated with science related topics. The environment is what I really wanted to work with because there are ways to take care of it this project is one. My project is something I really liked working on. I have accepted awards from my school in most of my classes. My hobby is learning, I learn all day. I have one living parent for I have been raised by my grandparents, they only speak Cree to me and always tell me school is important. Over the years I have attended different schools and have had many teachers along the way. It was here in Nelson House that I have participated in my first science fair, Winnipeg was my second and I am now going to participate on behalf of my school in Ontario. This has been a good experience for me and I am thankful for everyone who has taught and inspired me to excel in my studies.

Awards

Value

Dalhousie University Faculty of Science Entrance Scholarship Senior Silver Medallist - \$2000 Entrance Scholarship Sponsor: Dalhousie University, Faculty of Science	\$2 000
University of Ottawa Entrance Scholarship Senior Silver Medallist - \$3000 Entrance Scholarship Sponsor: University of Ottawa	\$3 000
