

ESPC 2010 - Peterborough (Ontario)

Alexander Weismann

Le dilemme du prisonnier

Division: Internationale

Catégorie: Junior

Région: River Valley

Ville: Fredericton, NB

École: George Street Middle School

Sommaire: This project is a psychology experiment based on the "Prisoner's Dilemma" theory. The experiment strives to prove/disprove that "good guys don't always finish last". The experiment was re-created with students and is based on the theory that cooperation will win overall.

Biographie

My name is Alexander Weismann and I am a Grade 7 Student. I participate in Tae-Kwon-Do and I am at the green belt level. My favorite pastimes are badminton, enjoying the great outdoors, biking, swimming and playing video games. The best fun thing I have ever done is indoor sky diving where I did the equivalent of 4 sky dives. I would like to work in graphical design, be a chef and own my own restaurant, or work at developing better technology that would help simplify our lives. I would also love to be a contestant on "Mantracker" when I am older. This is my first year of competing in the science fairs and I am very happy to have been chosen to represent New Brunswick. I hope to be back at the National Science Fair again!

Prix
