Division: Physical & Mathematical Sciences

Category: Junior

Region: Sunset Country

City: Ear-Falls, ON

School: Ear Falls P.S.

Abstract: To find the most cost efficient and environmentally friendly absorbent towel to use in a school, five different towels were tested. Non-disposable absorbent towels were more cost efficient than disposable ones with the SAFEGUARD general purpose microfibre cloth being the most cost efficient.

Biography

I am a grade 7 student at Ear Falls Public school. I enjoy this school because it has many extracurricular sports such as Soccer, Basketball, Volleyball and these are all sports I enjoy. My favourite subjects are gym, science, and history. I have won many awards. The one I am most proud of is the best overall improvement from last year. The reason I'm proud of this is because I have been working towards this goal for a while. I am enrolled in our local Scout group. We travel and do many fun things like building and camping and playing fun games. I am planning on attending the World Scout Jamboree in Sweden in 2011. The Experience of traveling to a different country, meeting new people and making new friends is very exciting. After high school I would like to attend Dalhousie University and study engineering.
