Simon Bild-Enkin

A Medieval Bow in the Twentyfirst Century

Division: Génie et sciences de l'informatique

Catégorie: Junior

Région: Vancouver Island

Ville: Victoria, BC

École: Central Middle School

Sommaire: I studied how to make the best English longbow for my size and strength. I used ash, maple, and laminated bows and determined what dimensions I should use for each different material and how the different woods affect the distance shot by the bow.
