

CWSF 2010 - Peterborough, Ontario

Jensen Currie

A Step in the Right Direction

Division: International

Category: Junior

Region: Bluewater

City: Walkerton, ON

School: Mother Teresa E.S.

Abstract: This project brings awareness of the need for physical activity in your everyday life. It compares the average daily steps of the participants by different categories: Male vs. Female, Age grouping, BMI and more. It is amazing to see how people's activity varies by seasons, occupation or whichever category that was analyzed.

Biography

My name is Jensen Victoria Currie, I am a 13 year old girl and I'm currently in grade 7 at Mother Teresa School in Walkerton Ontario. I am an competitive swimmer with the Port Elgin Breakers Swim Team. During the summer I play Soccer. I also enjoy playing the Piano through out the year. My science fair project is called Step Step Step and this is a continuation of my Science fair project from 2008 where I won the Freddy Fusion Best in Fair award, a gold medal and a health award. This years Science fair project is called Step Step Step 2 and I won 2 awards and a gold medal. My life ambition is to work in the medical field as a physician.
