Perceived Results Vs. Actual Results

Challenge: Information

Category: Senior

Region: Sahtu

City: Norman Wells, NT

School: Mackenzie Mountain School

Abstract: Perceived results vs. actual results is an experiment designed to determine a relationship between how students think they are performing and how they actually perform in cognitive tests. This was accomplished by misleading students with false marks and recording their real results.

Biography

I was born and have lived in Northwest Territories my entire life. Despite living in an isolated community I have traveled to many countries. I enjoy all types of art, including music.
