Mexico Vivo: Know Your Biodiversity

Challenge: International

Category: Senior

Region: Mexico

City: Mexquitic de Carmona, SLP, , San Luis Potosi,

School:

Abstract: The "Mexico Vivo, know your Biodiversity" is focused on solving the problems that exist in our country about the lack of information about our biodiversity, especially in primary school children. The aim of this work is to develop an interactive software simple and attractive way to display the great biodiversity of our country.

Biographies

Victor - I'm 19 years old from Mexico, and am beginning study at the Polytechnic University of San Luis Potosi in the area of Systems Engineering and Industrial Technologies. In the future I plan to develop my knowledge and skills further in order to to be successful.

Manuel - I was born on January 6, 1992 in Mexico City, where I lived until six years, after I moved to the city of San Luis Potosi, where I live now, the primary consideration in two different schools, the "Elementary School Christopher Columbus, the first two years and the "Melchor Ocampo Elementary School, the last four years of primary education. The secondary course in the "Technical High School Number 68" and then consider a career in computer technology with high school at the Centre for Technology Studies, Industrial and Service 125.
