Head to Toe Toasty Rice Bag

Challenge: Innovation

Category: Intermediate

Region: Peace Country

City: Nampa, AB

School: Glenmary School

Abstract: "Head to Toe" Toasty rice bags are a natural, less wasteful alternative to other heat packs on the market. They are just as effective but with the bonus of being eco-friendly. They are made with rice and only need to be nuked for a minute then they can be used and re-used.

Biography

I was born in Peace River, Alberta but raised in Nampa, Alberta. I was a member of the junior high basketball team for the last two years. My favorite classes are art and science. I am planning to study Marine Biology when I graduate and I'm currently working on applying to private school in Victoria, BC called Pearsons' college. In 2009 I was awarded student of the year for grade eight and again in 2010. I have received honor roll on every report card since grade seven. My other interests include scuba diving, fine arts and music (mostly of the rock genre). I study Zombology, I live by the teaching found in the 'Zombie Survival Guide' by Max Brooks. Oh, and I watch a lot of television, Bazinga!
