Passive RFID Based Object Locator

Challenge: Innovation

Category: Junior

Region: London District

City: London, ON

School: Mountsfield P.S.

Abstract: We have developed a passive RFID (Radio Frequency Identification) based object locator that can help people find misplaced items at home. This object locator is connected via Bluetooth to a computer and is ideally used for items misplaced within the home. The test results show that our system can significantly reduce time to find misplaced items at home.

Biographies
