

ESPC 2011 - Toronto (Ontario)

Biographie

I'm a grade 9 student at Central Secondary School, and I live in London, Ontario, Canada. The CWSF in Toronto will be the second one I'm going to. I enjoy playing chess, and my favorite subjects are math and science. I hope to get a science or technology related job in the future.

Optimizing 2D-Circulating Fluidized Bed Performance: How Factors Affect Cluster

	Prix Valeur
	particularly the multi-billion dollar oil refinery. When the machine operates clusters form, which benefit applications involving heat and detriment applications involving reactions. A linear equation was discovered that accurately predicts cluster amounts with CFB operating conditions as variables. It has a powerful use in industries, allowing them to individually optimize their processes according to their needs.
Sommaire:	Circulating Fluidized Beds are crucial to many industry applications,
École:	Central S.S.
Ville:	London, ON
Région:	London District
Catégorie:	Intermédiaire
