Jennifer Rich

Lose a Tonne: It's Easy!

Division: Sciences de la terre et de l'environnement

Catégorie: Intermédiaire

Région: Cariboo Mainline

Ville: 150 Mile House, BC

École: Williams Lake Secondary

Sommaire: My study focused on the One Tonne Challenge. I completed the questionnaire according to what would be closest to an average household. I then did the reductions and compared each change with the starting emissions in graphs. I also looked into the background of the questions and any assumptions that were made.
