

CWSF 2011 - Toronto, Ontario

John Hinch

Stimuli In = Action Out?

Challenge: Discovery

Category: Junior

Region: Waterloo-Wellington

City: New Hamburg, ON

School: Forest Glen P.S.

Abstract: A participant's preferred dominant sense was determined, and then how much that sense affected their conscious and unconscious decisions to act was studied. The results showed possible innovative benefits to the retail and advertising sectors of the Canadian economy.

Biography

I am awesome, cheerful, and outgoing. I like cars, and live with my family and pets. I am in grade 8, go to Forest Glen Public School in New Hamburg, Ontario, and like to attend the homework club with my friends. I like to play games and go biking, skiing, swimming, snorkeling, kayaking, and sailing. I like to go on family trips - especially to the beach or cottage. I won 1st place in the children's category of the Wilmot Gingerbread Contest in 2010. I have also won gold medals at the WWSEF in both 2010 and 2011. When I get older (I never want to grow up), I want to make lots of money working in a technically and/or scientifically interesting field. I am very excited to be at the CWSF this year.
